Providing a document having ordering method information and/or payment method information in a first portion (i.e., a header), offer to sell and/or offer to buy entries in a second portion (i.e., a body), that are selectable by a user using the method information of the first portion and security information in a third portion (i.e., a digital signature) by which the user can verify the content of the first and second portions and can authenticate the source of the document.
